

TIPS

Have you checked your oil and water levels?

The green stuff in the bottle under your bonnet is coolant that keeps your engine cool. If it turns brown and runs out you'll see a red sign like that one. You don't want that! If you think its brown, replace it.

Check your engine oil before going to the beach or on a date.

Make sure that the level is above minimum and it is free flowing. If the oil looks dark brown or black, have it replaced before it causes serious damage.

WHO WE ARE

OUR HISTORY

We write our own history everyday by repairing cars of Hamiltonians like yourself. Our history began in 1981 and we have just gotten started.

OUR VALUES

We are all about doing a super good job for you every time you come in. Everyone in shop aims to give you wonderful speedy service so that your time isn't wasted.

FIND US

Come in and see us at:

27 West Street, Hamilton

Or if you want to chat, give us call on:

(07) 847 0099

KW MOTORS

PAY PER WEEK

CAR SERVICE PLANS
